IS DAM'S DNA ON FILE? YES

NO

please print clearly

OWNER CONSENT: I, _____ (owner/vet/agent) hereby allow the
Animal Genetics Laboratory to isolate and archive the DNA from this animal for research purposes.

OWNER SIGNATURE: _____

DATE SAMPLE COLLECTED: _____

SAMPLING INSTRUCTIONS:

Pull 30-50 mane or tail hairs with *the root follicle attached*. It is usually best to pull 5-10 hairs at a time rather than a larger amount.

Fill the form completely with all known information.

Tape the hair sample securely in the appropriate area with clear tape, or fold hairs into this form and place in envelope or ziplock bag. **DO NOT TAPE OVER FOLLICLES.**

If sending multiple samples on different horses, place each sample in an individual envelope or ziplock bag with corresponding form, then combine all into a larger shipping container.

TAPE SAMPLE HERE

DO NOT TAPE OVER FOLLICLES
